

The San Andreas Fault

A San Bernardino County Museum Association Field Trip
with Senior Curator Kathleen Springer & Curator of Geology Chris Sagebiel

Saturday, May 21, 2005

Check in at the museum at 7:30 a.m. and return about 6:00 p.m.

Join Senior Curator Kathleen Springer and Curator of Geology Chris Sagebiel on a trip that will open your eyes to the mighty forces of nature! We will leave the museum and venture to the Cajon Pass, through the

San Gabriel Mountains, and out into the Mojave Desert to view the San Andreas Fault in all of its glory. We will discover the geology of Southern California and how the San Andreas Fault Zone has shaped the landscape and, ultimately, our lives in this region. In Wrightwood, we will view the most southern extent of rupture on the San Andreas system that occurred in the huge 1857 earthquake and discuss the potential for future events. Our excursion will take us through millions of years of earth history up through recent times with discussions about earthquakes in Southern California today. This all-day trip is limited to 25 individuals. We will leave the museum via van and travel all day with a stop in Wrightwood for lunch.

The cost of \$50/person (\$60 for non-members of the Museum Association) includes coffee, juice, and muffins; lunch; and snacks and beverages. Wear sturdy, comfortable shoes for easy short hikes.

Space is limited, and pre-paid reservations are required.

Return the coupon below no later than May 16, 2005

Please reserve ___ places for "The San Andreas Fault" at \$50.00/person (Museum Association member price)

Please reserve ___ places for "The San Andreas Fault" at \$60.00/person (non member price)
